Two more Covid cases detected

Two positive Covid-19 cases, a Gibraltar resident and a cross-frontier worker, have been detected.

A spokesman for the Gibraltar Government confirmed Thursday's new resident case is an unvaccinated adult.

"This case is connected to an existing active case," the spokesman said.

"Thursday's] new non-resident case is a vaccinated cross-frontier worker."

After almost two months of zero cases, Gibraltar has reported four cases in less than a week.

In total there are four resident cases after an unvaccinated individual tested positive for Covid-19 on Saturday, two more were detected on Tuesday, one vaccinated and the other unvaccinated and (Continued on page 2)
